RESOLUTIONS.

TARIFFS.

New Delhi, the 11th December 1937.

No. 202-T. (1)/36.—The protection afforded to the Paper and Paper Pulp Industries by the Bamboo Paper Industry (Protection) Act, 1932, will determine on the 31st March 1939. A subsidiary enquiry into the question of classification of paper for tariff purposes was held by the Tariff Board in 1935 and, the action taken upon the Board's recommendations having resulted in a not inconsiderable extension of the range of protection previously enjoyed by the Indian paper making industry, the Government of India decided to review the necessity or desirability of maintaining the extra measure of protection which was fortuitously afforded by the imposition of the revenue surcharge of 25 per cent. in 1931. This matter has accordingly been enquired into departmentally, but, owing to the complicated nature of the data to be examined and in view of the imminence of this further enquiry by the Tariff Board into the whole question of protection to the Industry, the Government of India have taken no action in regard to the surcharge.

2. The Tariff Board is now requested to re-examine the question of the protection enjoyed by the paper and paper pulp industries in India and to report what protective measures (if any) should be continued after the 31st March 1939.

3. If the Tariff Board is satisfied during the course of its investigations that the revenue surcharge on the paper protective duties is no longer justifiable it will be at liberty to make its recommendations in this behalf in advance of its main report.

4. In making its recommendations the Tariff Board will take all relevant considerations into account including those stated in parts (b) and (c) of the Resolution adopted by the Legislative Assembly on the 16th February 1923.

5. Firms or persons interested in the paper making industry or in industries dependent on the use of paper who desire that their views should be considered by the Tariff Board should address their representations to the Secretary to the Board.

ORDER:—Ordered that a copy of the above Resolution be communicated to all Provincial

Political Officers, all Departments of the Government of India (except the Home and External Affairs Departments), the Director-General of Commercial Intelligence and Statistics, the Central Board of Revenue, the Indian Trade Commissioners, London, Hamburg, Milan and Osaka, the Secretary, Tariff Board, the High Commissioner for India, London, His Majesty's Trade Commissioner in India, the Canadian Trade Commissioner in India, all the Chambers of Commerce and Associations, the French Trade Commissioner in India, Burma and Ceylon, the Secretary, Imperial Council of Agricultural Research and the Chief Controller of Stores.

Ordered that a copy be communicated also to the Government of Burma.

Ordered also, that it be published in the *Gazette of India*.

No. 199-T. (1)/37.—The protective duty imposed on imported magnesium chloride under the Heavy Chemical Industry (Protection) Act, 1931, has effect only up to the 31st March 1939 and the Government of India consider it necessary that an enquiry should be held by the Tariff Board in order to ascertain whether any and if so, what protective measures should be continued beyond that date.

2. The Tariff Board is therefore requested to examine the above question. In making its recommendations the Board will take all relevant considerations into account including those stated in parts (b) and (c) of the Resolution adopted by the Legislative Assembly on the 16th February 1923.

3. Firms and persons interested who desire that their views should be considered by the Tariff Board should address their representations to the Secretary to the Board.

ORDER:—Ordered that a copy of the above Resolution be communicated to all Provincial Governments, Chief Commissioners and the Political Officers, all Departments of the Government of India (except the Home and External Affairs Departments), the Director-General of Commercial Intelligence and Statistics, the Central Board of Revenue, the Indian Trade Commissioners, London, Hamburg, Milan and Osaka, the Secretary, Tariff Board, the High Commissioner for India, London, His Majesty's Trade Commissioner in India, the Canadian Trade Commissioner in India, all the Chambers of Commerce and Associations, the French Trade Commissioner in India, Burma and Ceylon, the Secretary, Imperial Council of Agricultural Research and the Chief Controller of Stores.

87I. Approved locked safety lamps or electric torches shall be exclusively used in any ventilating district of a mine in which there is an underground fire whether such fire is sealed off by stoppings or not :

Provided that the Chief Inspector may in the case of any mine, grant exemption from this regulation under such conditions as he may impose, if, in his opinion, the use of approved safety lamps or electric torches in such mine is not necessary.

87J. (1) In any ventilating district of a mine which is not naturally wet throughout and—

- (i) in which there is an underground fire, whether sealed off or not; or
- (ii) in which the extraction of pillars is in hand or is about to commence.

The following precautions with respect to danger from dry coal dust shall be taken :—

- (a) All haulage and tramming roads shall be systematically kept clear of accumulations of dry coal dust.
- (b) All such roads shall be systematically treated with water or incombustible dust in such a manner as to prevent an explosion from being initiated or propagated by coal dust. If incombustible dust is used for the purpose, it shall be of a kind which is not likely to be injurious to the health of workmen.

(2) The precautions laid down in sub-regulation (1) shall also be observed at all places within 400 feet of an area—

- (i) which has been or is being sealed off on account of fire; or
- (ii) in which pillars are being extracted.

(3) The Chief Inspector may, by order in writing, grant, subject to such conditions as he may impose, exemption from the provisions of sub-regulation (1) or sub-regulation (2) to any mine or part of a mine on the ground that, on account of the special character of the mine or part, the observance of the precautions laid down therein is not necessary.

87K. In any working mine in which a fire is known or is believed to exist—

- (a) adequate precautions shall be taken to prevent the passage of air from the mine through any goaf or through broken strata connected with the fire; and
- (b) no work, other than work required by clause (a) of this regulation, shall be done in any part of the mine which is not effectively sealed off from any such goaf or broken strata."

XX. After regulation 92, the following regulation shall be inserted, namely :—

"93. Where a main haulage road extends to a distance of more than 3,000 feet from the shaft or the entrance to the mine, efficient means of telephonic communication shall be provided and maintained between a suitable station near the end of every such main haulage road, the pit-bottom and the surface, or between a suitable station near the end of every main haulage road and the entrance to the mine:

Provided that the Chief Inspector may by order in writing require the provision of means of telephonic communication where in any mine the main haulage extends to a distance of less than 3,000 feet from the shaft or the entrance to the mine, where travelling is unduly arduous:

Provided further that the Chief Inspector may by order in writing permit the use of other suitable means of communication in cases in which the conditions in the mine are not suitable for telephones."

XXI. The present regulation 93 shall be inserted in regulation 95 as sub-regulation (1) of that regulation, and the present regulation 95 shall be re-numbered as sub-regulation (2) of that regulation.

XXII. In regulation 96A, the words "in which inflammable gas has been found during the previous twelve months or in which there is a risk of inflammable gases entering the mine from an underground fire" shall be omitted.

XXIII. After regulation 101, the following regulation shall be inserted, namely:—

"101A. No liquid oxygen explosive shall be used in any underground part of a mine."

XXIV. For regulations 108 and 109, the following regulations shall be substituted, namely:—

"108. (1) No shot shall be stemmed or fired except by or under the personal supervision of a competent person appointed by the manager by order in writing to be a shot-firer.

(2) In any mine in which more than 50 persons are employed underground at any one time, no person shall be so appointed or shall perform the duties of a shot-firer who is responsible for making inspections under sub-regulation (2) of regulation 70.

(3) With effect from the 1st day of April 1940, no person shall be appointed as a shot-firer under sub-regulation (1) unless he holds either a shot-firer's certificate or a sirdar's certificate or a manager's certificate granted under these regulations.

109. Every shot-firer shall, before a shot is fired by him or under his supervision, see that all persons in the vicinity have taken proper shelter at a safe distance; he shall also take suitable steps to prevent any person approaching the shot and shall himself take proper shelter."

XXV. For regulations 115 and 115A, the following regulation shall be substituted, namely:—

"115. (1) In any place in a mine in which the use of a locked safety lamp is for the time being required by or in pursuance of these regulations—

(a) no shot shall be stemmed or fired by any person who does not hold a sirdar's certificate endorsed for gas testing;

(b) no shot shall be fired until the shot-firer has examined both the place where the shot is to be fired and all accessible places within a radius of 60 feet for the presence of inflammable gas and has found such places free from gas.

(2) No shot shall be fired at any place underground in a mine unless the place itself and all accessible places within a distance of 60 feet—

(a) are naturally wet, or

(b) have been drenched with water to such an extent that there will be no danger of dry coal-dust being raised into the air by the shot, or

(c) have been thoroughly treated with incombustible dust."

XXVI. For regulation 116, the following regulation shall be substituted, namely:—

“116. No explosive other than a Permitted Explosive shall be used—

- (a) in any mine in which inflammable gas has within the previous twelve months been reported to be present or in which safety lamps are required, by or in pursuance of these regulations, to be used for any purpose other than inspections; and
- (b) in any other mine in any main haulage road or main intake or main return airway or any place immediately contiguous to such road, intake, airway or place, unless such road, intake, airway or place is naturally wet throughout:

Provided that in the case of any mine or any part of a mine an exemption may be given by the Chief Inspector, subject to such conditions as he may impose, on the ground that, on account of the special character of the mine, the prohibition of the use of explosives other than Permitted Explosives is not necessary.”

XXVII. In regulation 116A—

(i) for the full-stop at the end of clause (c), a semi-colon shall be substituted; and

(ii) after clause (c) the following clause shall be inserted, namely:—

“(d) (i) no shot of a Permitted Explosive shall be fired except by means of a shot-firing apparatus of a type approved by the Chief Inspector and subject to such conditions as he may from time to time lay down by notification in the Gazette of India:

Provided that the Chief Inspector may, in special cases, by order in writing, permit, subject to such conditions as he may specify, the use of any other shot-firing apparatus;

(ii) every approved shot-firing apparatus in use in a mine shall, once at least in every three months, be cleaned and thoroughly overhauled by a competent person appointed in writing by the manager; and

XXVIII. After regulation 116A, the following regulation shall be inserted, namely:—

“116B. In any underground part of a mine two or more shots shall not be charged or fired in the same place simultaneously, if the explosive used is not a Permitted Explosive:

Provided that this regulation shall not apply to—

- (a) working places in which the roof, floor and sides within a radius of 100 feet of the place where shots are to be fired are naturally wet; or
- (b) a cross-measure drift in stone if such drift does not contain dry coal-dust; or
- (c) shafts which are in the process of being sunk through or across the strata."

XXIX. In regulation 117, for the words "person who fired the shot or a" the words "shot-firer appointed under regulation 108 or other" shall be substituted.

XXX. For regulations 123—125, the following regulations shall be substituted, namely:—

"123. (1) No artificial light other than an approved locked safety lamp shall be allowed or used—

- (a) in any seam in a mine in which an explosion or ignition of inflammable gas has occurred during the previous twelve months;

Provided that the Chief Inspector may, subject to such conditions as he may impose, exempt any mine from the operation of this clause, on the ground that on account of the special character of the mine the use of safety lamps is not necessary;

- (b) in any place in a mine in which there is or is likely to be any such quantity of inflammable gas as to render the use of naked lights dangerous;
- (c) in any working near a place in which there is likely to be an accumulation of inflammable gas; or
- (d) in any ventilating district of a mine in which inflammable gas has been found during the previous twelve months.

(2) If any difference of opinion arises between an Inspector and a manager on the question whether the conditions specified in clauses (b) and (c) of sub-regulation (1) exist in any mine, the question shall be referred to the Chief Inspector whose decision thereon shall be final.

(3) In the case of any mine to which clause (d) of sub-regulation (1) applies the Chief Inspector may, if safety lamps are not immediately available, grant a temporary exemption from the operation of that clause, subject to such conditions as he may specify, until such time as safety lamps can be obtained.

(4) In any mine or part of a mine in which safety lamps have been in use in compliance with the provisions of sub-regulation (1), no artificial light other than an approved locked safety lamp shall subsequently be allowed or used, except with the written consent of the Chief Inspector.

Explanation.—Where the ventilation in a mine is not mechanically controlled, the ventilating district shall be deemed to include the whole mine. Where the ventilation in part only of a mine is not mechanically controlled, the whole of the part in which ventilation is not mechanically controlled shall be deemed to be a single ventilating district.

124. Notwithstanding anything contained in regulation 123, fixed electric lights may be used in any mine or part of a mine, provided such installation complies with the rules made under the Indian Electricity Act, 1910, relating to the use of electric energy in parts of mines in which inflammable gas is likely to occur in quantity sufficient to be indicative of danger.

125. In any mine in which inflammable gas has been found during the previous twelve months, no advance gallery shall be driven more than ten feet ahead of the widened gallery and in every such gallery the ventilating current shall be conducted as near to the working face as is practicable."

XXXI. In regulation 127—

(i) in clause (a) after the word "appointed" the words "in writing" shall be inserted, and for the word "used" the words "issued for use" shall be substituted;

(ii) for clause (b) the following clause shall be substituted, namely:—

"(b) A competent person appointed in writing by the manager for the purpose shall examine every safety lamp at the surface immediately before it is taken underground for use and shall assure himself, as far as practicable, from external observation that each lamp is in safe working order and securely locked. The person so appointed shall not be the banksman except in a mine where the number of persons employed underground is not more than 50 at any one time."

(iii) After clause (c) the following clauses shall be inserted, namely:—

"(d) A competent person appointed in writing by the manager for the purpose shall examine every safety lamp on its being returned, after use underground. If on such examination any lamp is found to be damaged or misused, he shall record the nature of the damage or misuse in a book to be kept at the mine for the purpose. Every new entry in the book shall be shown to the manager without delay.

(e) The manager or a competent official appointed in writing by the manager for the purpose, other than the persons referred to in clauses (d) and (b) of this regulation, shall examine thoroughly all safety lamps in use at a mine at least once in every week, and shall record the result of his examination in a book kept at the mine for the purpose. If any lamp is found to be defective, it shall not be reissued for use until the defect has been remedied."

(iv) the existing clauses (d) and (e) shall be renumbered as clauses (f) and (g) respectively, and after these clauses as so renumbered the following clauses shall be inserted, namely:—

"(h) No glass of an approved flame safety lamp shall be replaced except by a flame lamp glass manufactured by such firm and of such type and satisfying such conditions as the Chief Inspector may from time to time specify by notification in the Gazette of India.

'(i) No bulb of an approved electric safety lamp shall be replaced except by an electric lamp bulb manufactured by such firm and of such type and satisfying such conditions as the Chief Inspector may from time to time specify by notification in the Gazette of India.' "

King's Police Medal.

NOTIFICATION.

New Delhi, the 1st January 1938.

No. 22H.—His Imperial Majesty The KING, EMPEROR OF INDIA, has been graciously pleased to confer the King's Police Medal, and in one case a bar to the Medal previously awarded, on the following officers and men of the Indian Police establishments:—

* * * * *

BENGAL.

Major Erichsen Shafton Ewen Rerrie, 1st Battalion, 5th Mahratta Light Infantry, lately Military Intelligence Officer, Midnapore.—Major Rerrie joined Midnapore in May 1933 as Military Intelligence Officer and Additional Superintendent of Police. He was in that district when Mr. B. E. J. Burge, the District Magistrate, was assassinated and took a prominent part in the round up of the conspirators which followed this outrage. Major Rerrie worked with great enthusiasm and displayed much energy in assisting to break up the terrorist organisation in that district. Between 1933 and 1936 combined Military and Civil operations, to bring about a change in the attitude of the people and to induce them to display a greater respect for law and order, were undertaken. Major Rerrie's personal exertions in this connection were particularly praiseworthy and it was mainly on this account that these operations were so successful. He reverted to military duty in May 1937; at great personal inconvenience and in the interests of continuity of experience he refused to take leave, so that his successor could assimilate a satisfactory working knowledge of the district of Midnapore.

Henry Carter Hunt, Indian Police, Officiating Deputy Inspector-General of Police.—Mr. Hunt joined the Imperial Police in 1909 and his service has been marked by thoroughness and ability of a high order. When a comparatively young officer he earned the thanks of Government for the efficient manner in which he performed the difficult duties entrusted to him in the Praggur-Khalilpur dacoity case. In 1921 his services were placed at the disposal of the Government of India for employment as Secretary to the Railway Police Committee which placed on record their high appreciation of Mr. Hunt's work and remarked that his devotion to duty materially lightened their labour. His work as Assistant to the Deputy Inspector-General of Police, Criminal Investigation Department, and as Deputy Commissioner, Calcutta Police, was characterised by exceptional ability and keenness. In the communal riots in Calcutta in 1926 he had an important and difficult role to play, which he handled with conspicuous success. Since he first officiated as Deputy Inspector-General in January 1933 he has been discharging the duties of that office in an eminently satisfactory manner.

Cyril Weale, Indian Police, Superintendent of Police.—Mr. Weale joined the Imperial Police in 1921. In 1924 he was posted to the Intelligence Branch as Special Assistant, and in view of his particular aptitude for such work he was appointed in 1926 as Additional Superintendent of Police, Dacca, and in 1930 as Special Superintendent, Intelligence Branch, where he worked with conspicuous success. As Superintendent of Police, Midnapore, where he had charge of the District Intelligence Branch, he succeeded in breaking up the ramifications of the terrorist parties in that district. His general administration of the district in all its branches was most successful, and his energy and efficiency acted as an inspiration to his subordinates.

Pulin Chandra Chakrabatti, Inspector of Police.—In the course of his 26 years' service in the Police Department Babu Pulin Chandra Chakrabatti has earned 37 money rewards including a gold watch presented by His Excellency the Governor of Bengal, and 16 commendations for good work, including several by Judges, as well as 5 good service marks. He received the thanks of Government for the efficient manner in which he carried out his duties in connection with disturbances in 1924. He joined the Criminal Investigation Department on 28th May 1928, and justified his selection by the high standard of his work. In the Punjabi Gang case he rendered valuable service, characterised by resource and devotion to duty. Through his assiduous investigation a gang consisting mainly of railway employees, who have for several years been carrying on a system of defrauding the railway by manipulating used tickets, has been discovered and brought to trial. He has also rendered invaluable service in detecting a gang that has, for many years, been concerned in forging Government

currency notes in the Howrah district. It is also due to him that the discovery has been made of an important gang, which has been defrauding Government by selling used stamps after removing the post marks by a chemical process.

Santosh Kumar Gupta, Officiating Inspector of Police.—This officer rendered excellent service in the Central Intelligence Branch, having worked in that department from 2nd July 1930 until he left on transfer to Faridpur on 5th May 1935 as senior District Intelligence Officer. His work in the Faridpur District Intelligence Branch has been marked by extraordinary efficiency and success. Bills introduced in the Bengal Legislative Council; Reports of Select Committees presented or to be presented to that Council; and Bills published before introduction in that Council.

BENGAL LEGISLATIVE COUNCIL DEPARTMENT.

NOTIFICATION.

No. 543L.C. — 10th January, 1938.—The following report of the Select Committee on the Bengal Cruelty to Animals (Amendment) Bill, 1937, by Mr. Lalit Chandra Das, M.L.C., with the Bill embodying amendments recommended by the Committee, is hereby published for general information.

Report of the Select Committee on the Bengal Cruelty to Animals (Amendment) Bill, 1937, by Mr. Lalit Chandra Das.

We the members of the Select Committee to which the Bengal Cruelty to Animals (Amendment) Bill, 1937, by Mr. Lalit Chandra Das was referred by a motion carried in the Council have the honour to submit this our report with the Bill embodying amendments recommended by us. All matter omitted by us has, as far as possible, been printed in italics and enclosed in square brackets and all new matter inserted by us has been underlined.

The changes made by us are detailed below :—

Clause 2 has been omitted because it is understood that Government propose to extend the Act under sub-section (3) of section 1 thereof to the areas referred to in this clause.

Clause 3.—The existing provisions in clause 3 have been redrafted from drafting point of view.

We think that a provision should be inserted for the forfeiture of the cow or the milch animal on which *phooka* has been performed and we also think that imprisonment in addition to fine shall be imposed as a punishment only in cases of a second or subsequent offence committed by the same person or in respect of the same cattle-shed. We have therefore inserted new provision to carry out this intention.

Clause 4 (*proposed section 6A*).—We are of opinion that the payment of a portion of fine to the informer should be left to the discretion of the magistrate.

Clause 5 has been omitted as we think that if the power referred to in this clause is given to an officer of the Calcutta Corporation or of a municipality there may be cases likely to result in a breach of the peace.

Some verbal drafting changes have also been made.

2. The Bill was published in the *Calcutta Gazette* of the 26th August, 1937. We do not consider that the Bill has been so altered as to require its republication.

3. We commend the Bill as settled by us for the acceptance of the House.

Calcutta, the 3rd January 1938.

RESOLUTION—No. 7VET.

Read—

Annual Reports of the Civil Veterinary Department, Bengal, and
of the Bengal Veterinary College for the year 1936-37.

Civil Veterinary Department.

Mr. P. J. Kerr held charge of the office of the Director, Civil Veterinary Department, and Veterinary Adviser to the Government of Bengal throughout the year. Rai Sahib M. P. Ghosh was Assistant Director in charge of Eastern Range and Rai Sahib N. N. Majumdar was Assistant Director in charge of Western Range. The latter officer was on leave during the major part of the year while Babu B. N. Das Gupta officiated in his place. Mr. M. B. Menon continued as Disease Investigation Officer, Bengal, until the 14th July 1936 when his services were transferred to the Veterinary Vaccine Section as Superintendent and Mr. Balwant Singh was appointed in his place.

In the year under review the mortality of animals from contagious diseases was the highest during the last five years. The total deaths from epidemic diseases were 52,702 as against 43,240 in the previous year. The incidence of rinderpest which has been rising in the past few years showed a decline, a loss of 26,126 animals from this disease being reported during the year as against 35,281 in the previous year. The decrease in the number of deaths from rinderpest in spite of widespread outbreak throughout the province was due to efficiency of control by Goat Tissue Vaccine which was applied with more satisfactory results. The low mortality from rinderpest was however counterbalanced by deaths among goats amounting to 12,714 reported to be from Parasitic Diarrhoea. During the year Anthrax appeared as a definite and fairly widespread outbreak, in addition to its usual occurrence in numerous sporadic cases. The total number of deaths reported from this disease was 1,561. The district of Dacca was the worst sufferer from this disease during the year, 1,128 deaths being reported from that district. The epidemic was so serious in this district that a prohibitive "standstill" order on cattle and goats and their hides and skins had to be issued for a period extending over two months. The outbreak was effectively controlled through the widespread inoculation by Special Anthrax Spore Vaccine obtained from Burma where it had recently been introduced for cattle. An outbreak of glanders amongst hack ponies in Noakhali municipal area was reported during the year. Twenty-two animals were attacked out of which two died before the test was applied and the rest destroyed after reaction to the Mallein Test.

The usual programme of preventive inoculation was carried out in 1,381 outbreaks and 3,55,079 animals were inoculated. The death rate among the inoculated and vaccinated animals was 1.6 per cent.

In addition to the inoculation performed during the year, the Veterinary Assistant Surgeons working in the mufassal visited 20,594 villages and treated 2,17,788 cases as against 18,494 villages visited and 2,37,252 cases treated in the previous year. It is satisfactory to notice that the cattle fairs and shows continued to be attended by the departmental officers who took the opportunity of delivering lectures on veterinary matters and of explaining to the people the modern methods of treatment of diseases and of the care, management and upkeep of cattle. This is essentially necessary for the development of veterinary knowledge among cultivators who are proverbially conservative.

During the year the Veterinary Vaccine Section was opened on a permanent basis replacing the temporary vaccine dépôt. This section is equipped not only to make and supply goat tissue vaccine but has cold storage sufficient to carry a stock of other sera and vaccines for distribution to the districts. Arrangements for carrying out microscopic, cultural and biological tests also exist in this section. It has taken over the work of examination of slides and specimens from the districts, except for rabies work, and after diagnosis, distributes the appropriate sera or vaccines. It supplied goat tissue vaccine to Assam throughout the year and to Orissa also during the latter part of the year.

The thanks of Government are due to Mr. Kerr for the care and attention which he devoted to the administration of the department. Government also notice with pleasure the names of the officers of the department who did good work during the year.

Bengal Veterinary College.

Mr. A. D. MacGregor held charge of the office of the Principal, Bengal Veterinary College, during the year. The post of the Vice-Principal of the College was vacant till the 11th December 1936 when Captain J. M. Lahiri, M.R.C.V.S., F.Z.S. (London), Professor of Anatomy and Physiology, Bihar Veterinary College, was appointed to the post.

This institution continued to maintain its popularity and there was an increasing demand for admission into this college from places in and outside India. The number of students on the roll at the beginning of the session was 194 of whom 10 left during the season and of the remaining 184 students who continued throughout the year only 78 belonged to Bengal, the rest having come from other provinces.

The total number of stipends at the college in the year was 58 of which 24 stipends were granted by the district boards of Bengal. It is gratifying to note that the district boards are responding more and more to the departmental appeal regarding award of stipends to the students at the college. The results of the diploma and annual examinations of the year were satisfactory.

Government are pleased to record their appreciation of the work done by Mr. MacGregor. Thanks of Government are also due to the non-official members of the Committee of Management of the College for the kind co-operation and advice which they gave towards improvement of the institution.

By order of the Governor,

H. S. E. STEVENS,

Secy. to the Govt. of Bengal.

In addition to the details required on the reverse clear informations are given below under the following heads:—

(a) If the ordinary surplus is insufficient to meet the charges of the proposed loan, the particular steps which the district board has taken or has agreed to take to make good the deficiency.

(b) Possible means of income in the revenue of this district board.

(c) A statement of all outstanding loans as well as the annual charges involved on their account.

(a) The loan will be repaid according to the instructions contained in Government letter No. 1148-52P.H., dated 24th March 1936. The average capital expenditure of the board upon water-supply for the triennium ending with 1936-37 was Rs. 66,900, 50 per cent. of which will amount to Rs. 33,450 which is sufficient for the purpose of this loan as well as further loan that will be taken in this connection in next two years up to at least two lakhs of rupees.

(b) Nil.

(c) (i) Loan of Rs. 40,000 taken on the 20th March 1923 out of which 29 instalments of Rs. 1,873-2 each were paid up to date out of 40 instalments.

(ii) Loan of Rs. 30,000 taken on the 14th March 1925 out of which 25 instalments of Rs. 1,404-13 each were paid up to date.

(viii) Loan of Rs. 2,000 taken on the 10th August 1937 to be paid in 20 equal instalments of Rs. 120-13-6 each.

(d) Any explanation in regard to receipts and expenditure to show the true financial position of the board when such is otherwise than the ordinary surplus would indicate.

(d) Financial position of the board indicates ordinary and substantial surplus. In the ordinary expenditure much capital expenditure has been included which can be curtailed according to circumstances, the recurring liability and expenditure being rather small indicating sound financial position.

The Government contributions towards water-supply of which the district board will have the benefit every year, will also help much towards repayment of the loan with greater ease.

STATEMENT OF OBJECTS AND REASONS.

The Bengal Tenancy (Amendment) Act, 1928, has been viewed by the tenants of Bengal as the law for the landlords. There is a general cry for thorough overhauling of the Act with the least delay with a view to give the tenants immediate relief.

The object of this Bill is to abolish the system of *nazarana* and the right of pre-emption, to suspend the operation of the provision of enhancement of rent, to reduce the rent, to provide the criminal measure for illegal exaction, to make subdivision of tenancy and tenure and to mutate the name with a fee of Re. 1, to repeal the provision of certificate procedure and to repeal the provision by which the incumbrance on the occupancy-right was preserved, to enable the interested applicant to deposit the proportionate decretal money and to give better right to non-occupancy and under-*raiya*s and to exempt rent of diluviated lands.

It is hoped that these amendments, if accepted, will be of immense help to the *raiya*s of Bengal.

Resolution on the report of the Board of Revenue on the Land Revenue Administration of the Presidency for the year 1936-37.

GOVERNMENT OF BENGAL.

Revenue Department.

Land Revenue.

Calcutta, the 11th January 1938.

RESOLUTION—No. 602L.R.

Read—

The report of the Board of Revenue on the Land Revenue Administration of the Presidency for the year 1936-37.

During the first part of the year the agricultural distress in West Bengal, and in the Sunderban tracts of Khulna and the 24-Parganas (to which reference was made in the report of the previous year) reached a climax, necessitating the declaration of scarcity in several districts. Large sums were expended in agricultural loans, test works and gratuitous relief. In the cold weather of 1936, this distress was relieved by a bumper crop of *aman* paddy, followed by a good *rabi* crop.

In Eastern and Northern Bengal, there was no general distress but there was some damage to crops by flood in the districts of Malda, Rajshahi, Pabna, Bakarganj, Noakhali and Chittagong, and by a cyclonic storm in some villages of Tippera. On the whole, crops in 1936 were above the average.

In consequence of satisfactory harvest there was a slight general improvement in the material condition of the people towards the end of the year. This improvement was most noticeable in West Bengal, when a record crop followed two years of almost complete failure. In Eastern and Northern Bengal, the price of jute was well maintained, although, as usual, the cultivators had sold most of their crop before they could get the full benefit of the rise in price. The price of paddy in

the Dacca, Chittagong and Rajshahi Divisions was slightly higher than the previous year. On the other hand, there was a slump in the price of sugarcane.

The wages of both skilled and unskilled labour continued to be low. Middle class people with fixed incomes benefited by the cheapness of labour and of food, but the problem of middle class unemployment continued to be as acute as before.

2. The economic improvement was reflected in the increased collections in Government estates. Rupees 75½ lakhs of arrears and current rent were collected as against a total current demand of Rs. 71 lakhs. There was improved percentage of collection in temporarily-settled and permanently-settled estates also.

The current demand of land revenue was Rs. 3,12,06,462 and collections were 78.65 per cent. of the total and 103.95 per cent. of the current demand. The fact that there were only 1,506 sales as against 24,429 defaults indicated the leniency with which the Sale Law was administered.

3. A sum of Rs. 1,44,589 representing 1.4 per cent. of the current demand was spent on agricultural, sanitary and miscellaneous improvements, while a sum of Rs. 1,11,252 representing 1½ per cent. on demand from Government estates was paid to the district boards of the province for the development of roads and communications in or leading to Government estates.

4. Agricultural demonstrations were carried out in the districts of Bankura, Midnapore, Hooghly, Nadia, Jessore, Darjeeling, Jalpaiguri, Bogra and Malda and in several districts of the Chittagong Division. In furtherance of the scheme to encourage Bhadrakol youths to take to agriculture as a means of reducing unemployment, lands were allotted to the 7th batch of Bhadrakol youths on the completion of their training in the Faridpur Agricultural Farm. In Bakarganj 20 Bhadrakol colonists have built houses at Char Fasson and the settlement of land with them has been concluded.

The number of schools and of pupils attending them in Government estates increased by 27 and 12,463, respectively, during the year under review.

5. The year under report was the 30th year of the colonisation scheme of the Bakarganj Sunderbans. In the 24-Parganas Sunderbans (colonisation of which was in the twenty-second year) no new area was taken up for reclamation. The total sums advanced by Government for reclamation in the 24-Parganas and Bakarganj Sunderbans and the total income derived from these areas up to the end of the year under report were Rs. 33,91,734 and Rs. 50,62,203, respectively.

6. The general health of the people in the Bakarganj Sunderbans area was fair but malaria was prevalent particularly during the rainy season. There was no material improvement in their economic condition. The indebtedness of the cultivators and the ravages of insect-pests are grave problems in this area. In the 24-Parganas, the health of the colonists was better than in the previous year, and crops were very good at the end of 1936.

7. *Loans under the Agriculturists Loans Act.*—A record sum of Rs. 36,82,566 was distributed owing to unprecedented distress in West Bengal. The greatness of the economic recovery is shown by record collections in the latter part of the year (Rs. 25,63,617). The free distribution of these loans was a great boon to the cultivators who showed their gratitude by prompt repayment immediately after harvest.

8. Relations between landlords and tenants were on the whole satisfactory, while in Government estates there was no ill-feeling between khasmahal tenants and the Government tahsildari establishments.

9. Thanks of the Governor are due to the Board of Revenue for the efficient administration of the branches of work under the Board.

By order of the Governor,

O. M. MARTIN,
Secy. to the Govt. of Bengal.
